The global financial system is the worldwide framework of legal agreements, institutions, and both formal and informal economic actors that together facilitate international flows of financial capital for purposes of investment and trade financing. Since emerging in the late 19th century during the first modern wave of economic globalization, its evolution is marked by the establishment of ...

### **Global financial system - Wikipedia**

Global supply-chain finance refers to the set of solutions available for financing specific goods and/or products as they move from origin to destination along the supply chain. It is related to a quickly growing use of a battery of technologies and financial business practices that allow for discounting of Accounts Receivable and financing of companies' confirmed Accounts Payable.
