Application Note AN092 - Texas Instruments

A tape measure or measuring tape is a flexible ruler and used to measure distance.. It consists of a ribbon of cloth, plastic, fibre glass, or metal strip with linear-measurement markings. It is a common measuring tool. Its design allows for a measure of great length to be easily carried in pocket or toolkit and permits one to measure around curves or corners.

In addition to Michael Saiki's point on our current reactive measures to safety instead of a proactive one, here
are some of the accidents that have occurred and how they continue to show our reactive attitude to safety in
the industry.

Topic 9: Safety and risk management in oil and gas

Rated 3 out of 5 by Mamanda from Cute measuring set but poor quality I bought this to replace a combination
of a plastic and metal set I previously had. I was originally attracted to this set because it was all metal, the
measurements could not simply rub off and it came with cute measurements like pinch, dash, etc.
